Computer Programming I & II, Technical Writing, Software Engineering, Ethics in Computing,
Data Structures & Algorithms I & II, Analysis & Design, Statistics, Operating Systems, Business of Technology,
Usability & User-Centered Design, Hardware Organization, Cloud Computing

EXPERIENCE

COMMANDLINK, LLC   Everett, WA
Software Engineer   Apr 2023 – Present
Worked with **React, PHP, JavaScript, JQuery, CSS,** and **HTML**

Projects
- Contributed to the front-end development of new software products and internal tools using React and MUI
- Developed custom React components and comprehensive testing suites
- Played a key role in creating new React codebase, transitioning legacy PHP code to modern React designs

Other Responsibilities
- Followed Agile methodologies, managing both self-assigned and team-assigned tickets
- Actively participated in daily standups, story estimations, design meetings, team retros, and sprint demos
- Provided detailed code reviews, with constructive feedback to peers

UNIVERSITY OF WASHINGTON   Bothell, WA
Teaching Assistant   Mar 2022 – Jun 2022
- Tutor over 30 students and answer questions, explain concepts in Java and Object Oriented Programming
- Provided 1-1 support for students, and grade homework assignments and exams

PROJECTS

Personal Website   www.jinevang.com
- Implemented in React using MUI framework
- Web and mobile friendly, with dynamic dark/light mode theming
- Custom designed components and layout

Budgeting App
- Implemented using Python
- Implemented lightweight command-line application that allows users to add and manage transactions
- Stores data locally in JSON files
